DOCUMENT RESUME

ED 312 957 HE 023 014

TITLE	Interprovincial Comparisons of University Financing. Ninth Report of the Tripartite Committee on Interprovincial Comparisons.
INSTITUTION	Council of Ontario Universities, Toronto.; Ontario Council on University Affairs, Toronto.; Ontario Ministry of Colleges and Universities, Toronto.
PUB DATE	Aug 89
NOTE	60p.
AVAILABLE FROM	Council of Ontario Universities, 130 St. George Street, Suite 8039, Toronto, Ontario M5S 2T4.
PUB TYPE	Reports - Descriptive (141) -- Statistical Data (110)
EDRS PRICE	MF01 Plus Postage. PC Not Available from EDRS.
DESCRIPTORS	Comparative Analysis; *Educational Finance; Enrollment; *Expenditure per Student; Family Income; Fees; *Financial Support; Foreign Countries; Higher Education; *Operating Expenses; *Resource Allocation; Student Financial Aid; *Universities
IDENTIFIERS	*Canada

ABSTRACT

Expenditures on universities by each of Canada's provinces are compared. An introductory section describes the project through which the study is undertaken, explains the indicators used, and discusses structural problems encountered in making comparisons. The central portion of the report is a tabulation of these indicators for each province and for Canada as a whole: provincial operating expenditures per students; provincial operating expenses per capita; provincial operating expenses plus fees per student; total operating income per student; provincial operating expenses plus student aid as a percentage of gross general expenditures; provincial operating expenses per $1,000 of provincial personal income; and total university operating expenditures as a percentage of provincial gross domestic product. Appended materials include guidelines and definitions for the indicators used and financial and enrollment data for each province. (MSE)

Dr. T. A. Brzustowski
Deputy Minister
Ministry of Colleges and Universities

Dr. H. V. Nelles
Chairman
Ontario Council on University Affairs

The ninth report of the Tripartite Committee on Interprovincial Comparisons is enclosed. This report updates the previous edition by adding two more years of data, 1985-86 and 1986-87. The report outlines the eight indicators used to make interprovincial comparisons and provides the values of these indicators for the thirteen years, 1974-75 to 1986-87. You will find some modifications and corrections to the data found in the Committee's previous reports.

The Tripartite Committee would again like to thank the representatives of the other provinces involved in its work. These individuals, who are listed at the beginning of the report, were crucial in providing data for their respective provinces.

The Committee plans to continue to improve and update the report in the near future.

Sincerely,

Paul Stenton
Chairman
Tripartite Committee on
Interprovincial Comparisons

Notes on Appendix B 35

Interprovincial Comparisons of University Financing

The Tripartite Committee on Interprovincial Comparisons was established in 1977 to examine university financing in various provincial jurisdictions. The aim of the Committee was to develop a framework within which to make interprovincial comparisons of university financial data. The Committee addressed three specific areas:

- the indicators to be used;
- the structural differences in higher education systems which had to be considered in order to make the indicators reliable; and
- the data sources which would provide the best information.

Members of the Committee were drawn from the Ontario Council on University Affairs (OCUA), the Ministry of Colleges and Universities (MCU), and the Council of Ontario Universities (COU).

The present report, the Committee's ninth, updates the previous reports with additional data for 1985-86 and 1986-87. It describes the approach taken by the Committee, the financial indicators chosen, and the values of these indicators for the thirteen-year period, 1974-75 to 1986-87. Because of revisions to some of the data, the present report replaces all previous reports.

Indicators

The Committee focussed on three major questions: how much financial support is provided to universities; how does university financing fit into each government's priorities; and what proportion of provincial resources is directed towards university financing? Eight specific indicators were selected as the most useful in answering these questions:

1) Provincial operating grants per full-time equivalent (FTE) student;

2) Provincial operating grants per capita;

3) Provincial operating grants plus student aid per capita;

4) Provincial operating grants plus fees per FTE student;

5) Total operating income per FTE student;

6) Provincial operating grants plus student aid as a percentage of gross general (provincial government) expenditures;

7) Provincial operating grants per $1,000 of provincial personal income; and

8) Total university operating expenditures as a percentage of provincial gross domestic product.

The first indicator represents the level of funding provided by provincial governments, on a per FTE student basis, both to institutions within the province and to institutions outside the province. In the latter case the government of one province provides funds to an institution located in another province, to support the training of students originating in the province but enroled in special programs in institutions located outside the province's boundaries. Indicator Two measures the various provincial governments' support for universities, within or outside the province, per capita of provincial population.

Indicator Three compares, on a per capita basis, total provincial government support of university education, regardless of whether the funds go to the universities in the form of operating grants or to students in the form of student aid.

The fourth and fifth indicators are based only on the revenues of institutions within the province. The fourth indicator allows for comparisons between provinces, on a per FTE student basis, of the two major sources of university income - provincial operating grants and student fees. In many provinces the provincial government exercises control not only over the level of operating grants but also over student fee rates. The fifth indicator adds in all other university operating income and shows, on a per FTE student basis, operating support from all sources received by institutions within each jurisdiction.

Indicator Six shows each province's percentage of its government's expenditures directed towards university education in the form of provincial operating grants and student aid. Provincial government expenditures are represented by the measure of Gross General Expenditure, developed by Statistics Canada to make provincial government financial data comparable among provinces.

The seventh and eighth indicators recognize that all provinces do not have an equal ability to pay for a university education for their citizens. The seventh indicator measures the ability of provinces to support their universities based on the level of personal income in each of the provinces. The eighth indicator measures the share of provincial economic activity, Provincial Gross Domestic Product (GDP), attributable to university expenditures.

Other useful indicators, which may address other questions, may be constructed with the raw data found in Appendix B.

Structural Problems

A major obstacle encountered in the development of interprovincial indicators is the variation in structure of post-secondary education which exist in the various provinces. These include college

programs offered in community colleges in Alberta and British Columbia, the collèges d'enseignement général et professionnel (CEGEPs) in Québec, church-related colleges in Manitoba, Saskatchewan and Ontario, and specialized institutions such as Ryerson Polytechnical Institute. To obtain as much consistency as possible among jurisdictions, a portion of the community college system's data was added to the university information for Alberta, British Columbia and Québec.

Data Definitions and Sources

The Committee has tried to minimize any remaining discrepancies through the set of guidelines and definitions outlined in Appendix A. The definitions conform as closely as possible to those used in the majority of provinces and are consistent with existing definitions established by Statistics Canada and the Canadian Association of University Business Officers (CAUBO).

APPENDIX A

GUIDELINES AND DEFINITIONS

APPENDIX A

Guidelines and Definitions

This appendix outlines the guidelines and definitions established for the specific purpose of making interprovincial comparisons. All information in this report pertains to the operating fund. This fund accounts for the costs of instruction and research, academic support services, administration, plant maintenance and other operating expenses of the university financed by fees, grants and other general income.

1. Provincial Operating Grants

Two types of provincial operating grants are identified separately:

i) Provincial Institutional Operating Grants: Grants which are provided by the government of the province in which the institution is located and which are classified as income in the general purpose or operating fund of the institution.

ii) Interprovincial Transfer Grants: Those funds provided by the provincial government in support of one or more university programs in another province.

Operating grants are reported for all enrolment shown, <u>including</u>:

a) grants provided by all provincial ministries in support of academic programs and/or general research;

b) grants for system-wide co-operative projects except grants to government advisory bodies;

c) those years of transfer institutions (colleges, etc.), so identified by provincial policy, which parallel first and second year university in Ontario; and

d) grants for theology students, if they are part of the post-secondary system.

The definition <u>excludes</u>:

a) ancillary enterprises;

b) non-credit programs;

c) municipal tax relief;

d) provincially sponsored research;

e) student aid;

f) scholarships; and

g) capital grants. Capital includes only: i) new buildings; ii) major additions; iii) debt servicing; iv) land purchases; v) building rentals, where it comprises a major portion of provincial operating grants; and, vi) specifically funded major alteration, renovation or restoration projects allocated funds greater than or equal to $100,000.

2. Provincial Student Aid

This includes all forms of non-repayable provincial student support, such as student aid grants, scholarships and bursaries. Student loans, including interest any province is paying on loans, are excluded.

3. Fees

This section includes fees normally collected for the Regular Session and as Miscellaneous fees. It excludes fees for non-credit programs and any fees reported under external sales and service. For all years, miscellaneous fees are reported separately. Included is revenue from:

a) Tuition - tuition fees for credit programs
b) Miscellaneous -library fees;
-athletic fees;
-health service fees;
-graduation fees;
-laboratory or equipment fees;
-materials or breakage charges;
-fines; and,
-all fees that become income to the university.

Excluded is revenue from:

a) non-credit course fees;
b) residence fees;
c) parking charges;
d) student union levies;
e) other ancillary fees; and
f) fees collected on behalf of another agency.

4. Total Operating Income

This includes all income, received or transferred, to meet the operating expenditures of provincial institutions. Income associated with the operating of university-level programs is included, expect for:

-capital funds;
-trust and endowment funds;
-sponsored research funds;
-ancillary enterprise funds; and
-non-credit instruction funds.

The following items are excluded from the study and are not considered as operating funds:

a) Provincial government grants designated for property taxes or grants in lieu of taxes and institutional payments to municipalities relating to property taxes are omitted from revenue and expenditure figures respectively.

b) Student assistance, which is defined as grants and scholarships paid directly to the student by the provincial government, is not included in total operating income.

c) Capital funds are not included in total operating income. Capital funds are defined as those funds which are designated for new buildings; major additions to existing buildings; building rental, where this is a major component of operating expenditures in the province; debt servicing charges; land purchases; and specifically funded major alterations, renovations or restoration projects allocated funds greater than or equal to $100,000.

The CAUBO definitions, for trust and endowment funds and ancillary enterprise funds, are followed for the purposes of this study. These funds are excluded, as are any debenture repayments from both operating revenue and expenditure. This latter exclusion is necessitated by the differing provincial treatment of capital support.

5. Total Operating Expenditures

This category includes items in the General Purpose Operating fund, as defined by CAUBO, but excludes trust and endowment; capital (as defined in this study); sponsored research; and ancillary enterprises. Appropriations are not included or considered as operating expenditures. The following CAUBO categories are included:

a) salaries;
b) travel;
c) library acquisitions;
d) operational supplies and expenses;
e) furniture and equipment;
f) utilities;
g) renovations and alterations (for the purpose of this report, only projects in this CAUBO category under $100,000 in value are included in operating expenditures);
h) space rental (see 4c) above);
i) scholarships, bursaries and prizes;
j) externally contracted services;
k) professional fees;
l) insurance;
m) institutional membership fees;
n) debt repayments;
o) internal cost recoveries;

p) external cost recoveries (general purpose operating only); and
q) miscellaneous.

6. Enrolment

Two types of students are included in the enrolment figures:

i) Provincial Institutions' Enrolment: Total students enroled in institutions within the province.
ii) Interprovincial Transfer Enrolment: Students enroled in programs in other provinces, the cost of whose education is funded by their home province. The transfer of funds is usually from one government to another.

All university credit (degree or diploma) programs for fall and summer terms are included in the enrolment figures. A number of provinces use part of their college systems to provide university-level instruction. In cases where this is a provincially-assigned role for the college system, it usually involves an admission requirement of Grade 12 (Ontario Grade 13 or equivalent). The funds and enrolment associated with such university-level instruction are included in the data contained in this study.

The treatment of some specific types of enrolment is identified below:

a) All students enroled in co-operative work-study programs and at university during either fall or summer terms are included. Students away from campus on a work-term are excluded.
b) Non-credit courses are not included in this study.
c) Theology programs are included in the study if such programs are eligible to receive provincial operating grants.
d) Teacher training and all undergraduate and graduate programs in education are included.
e) All enrolment in correspondence courses taken for credit are included.
f) University-level programs in agriculture are included, even if they are funded through grants from a provincial department other than that which normally provides university operating grants.
g) Medical interns and residents are excluded from this study.
h) All students enroled in an academic program of study at related centres, institutes, etc., are included.

A full-time student is counted as one full-time equivalent. A part-time student (undergraduate and graduate headcount) is counted as 1/3.5 full-time equivalent, which corresponds with the methodology followed by Statistics Canada. The Statistics Canada University Student Information System (USIS), supplemented by provincial information, is the source for the fall term enrolment data.

7. Provincial Gross Domestic Product

This is the value of goods and services produced within the geographic boundaries of each province. The figures used are obtained from Statistics Canada, Experimental Data on Provincial Economic Accounts, (13-213), Table 1.

8. Provincial Personal Income

This is the income received by individuals in each province from all possible sources. It includes not only wages, salaries and pensions, but also rents, dividends, interest, welfare payments, profits of personal businesses and realized capital gains. These figures are obtained from Statistics Canada, Experimental Data on Provincial Economic Accounts, (13-213), Table 10, Cansim Matrix No. 005089 to 006965.

9. Provincial Population

The January population figure for each province is used as reported in Statistics Canada, Canadian Statistical Review, (11-003).

10. Gross General (Provincial Government) Expenditure

Gross General (Provincial Government) Expenditure is described above (see page 2). It is found in Statistics Canada, Provincial Government Finance: Revenue and Expenditure, (68-207), Tables 4 and 7.

Notes on Appendix B

British Columbia

Institutions included:

University of British Columbia, University of Victoria, Simon Fraser University, Notre Dame (1974-75 and 1975-76 only), university level courses of the Open Learning Institute (commencing in 1980-81) and the university transfer component of 10 colleges in 1974-75, 14 colleges from 1975-76 to 1980-81, and 15 colleges since 1981-82.

The method of determining dollar amounts for university transfer students from college totals from 1979-80 forward is based on a new financial reporting system for colleges. As restated figures are not available, dollar amounts prior to 1979-80 remain as previously reported.

Alberta

Institutions included:

University of Alberta, University of Calgary, University of Lethbridge, Athabasca University, the university transfer portion of Grande Prairie Regional College, Keyano College, Lakeland College, Medicine Hat College, Mount Royal College and Red Deer College, and 3 private colleges - Camrose Lutheran College, Canadian Union College and Concordia College.

Saskatchewan

Institutions included:

University of Regina, University of Saskatchewan, Campion College, Luther College, St. Thomas More College, Saskatchewan Indian Federated College and the degree credit portion of the following affiliated colleges: Lutheran Theological Seminary, Western Christian College, Canadian Theological College, St. Peter's College, College of Emmanual and St. Chad, St. Joseph's College, St. Andrew's College, and Athol Murray College of Notre Dame.

Interprovincial transfers:

Interprovincial grants from British Columbia, Alberta and Manitoba for Veterinary Medicine training at the University of Saskatchewan are transferred from those provinces through the Government of Saskatchewan to the institution separately from its normal provincial operating grants. For the purpose of this study, these grants are included under "Provincial Institutional Grants". 50% of the cost of training Veterinary Medicine interprovincial transfer students from British Columbia, Alberta and Manitoba are covered by the province where the students

originated and the other 50% is covered by the Government of Saskatchewan. Consequently, only 50% of the total Veterinary Medicine students supported by other provinces are accounted for as "Transfers in".

Manitoba

Institutions included:

University of Manitoba (St. Paul's, St. John's and St. Andrews), St. Boniface College, University of Winnipeg and Brandon University.

Ontario

Institutions included:

Brock University, Carleton University, University of Guelph, Lakehead University, Laurentian University (Huntington, Thorneloe, Sudbury, Algoma, Hearst, Nipissing), McMaster University (McMaster Divinity), University of Ottawa (St. Paul), Queen's University (Queen's Theological), University of Toronto (St. Michael's, Regis, Trinity, Victoria, Knox, Wycliffe, St. Augustine's), Trent University, University of Waterloo (Conrad Grebel, St. Paul's, Renison, St. Jerome's), University of Western Ontario (Brescia, Huron, King's, St. Peter's Seminary), Wilfrid Laurier University (Waterloo Lutheran Seminary), University of Windsor, York University, Ontario Institute for Studies in Education, Dominican College, Ontario Teacher Education College, and the university-level portion of Ryerson Polytechnical Institute.

Interprovincial transfers:

Interprovincial grants from Alberta, Saskatchewan, Manitoba, New Brunswick and Prince Edward Island for Optometry training at the University of Waterloo are transferred from those provinces through the Government of Ontario to the institution through normal provincial operating grants. For the purpose of this study, these grants are included under "Provincial Institutional Grants". 50% of the cost of training interprovincial transfer students from Alberta, Manitoba, New Brunswick and Prince Edward Island is covered by the province where the students originated and the other 50% is covered by the Government of Ontario. Consequently, only 50% of the total Optometry students supported by other provinces are accounted for as "Transfers in".

Quebec

Institutions included:

Universities - Université Laval, Université de Montréal, Hautes Etudes Commericales, Ecole Polytechnique, Université de Sherbrooke, Université du Québec, McGill University, Bishop's

University, Concordia University, and the final year of the university transfer program of the CEGEPs and private colleges.

New Brunswick

Institutions included:

Mount Allison University, St. Thomas University, Université de Moncton, University of New Brunswick.

Nova Scotia

Institutions included:

Acadia University, Nova Scotia College of Art and Design, Dalhousie University, Mount Saint Vincent University, Université Ste-Anne, Technical University of Nova Scotia, St. Mary's University, St. Francis Xavier University, University College of Cape Breton, University of King's College, Atlantic School of Theology, Nova Scotia Teachers' College, Nova Scotia Agricultural College.

Prince Edward Island

Institutions included:

University of Prince Edward Island, (Atlantic Veterinary College - commencing in 1985-86).

Newfoundland

Institution included:

Memorial University of Newfoundland.
